vocabulary games

The aim of the game is to collect as many sets (foursomes) as possible.

For example, in "talking about clothes" there are 4 cards of shirts, four cards of pants, etc.

Shuffle the cards and deal 4 cards to each player.

The rest of the cards are left, face down, as a "deck".

The first player asks for a specific name of series:

"Do you have **shirts**?"

If **yes**, the player asks for the card needed.

"Do you have **a blue shirt**?"

If **yes**, the player receives the card and has another turn.

If **no**, the player takes a card from the deck.

When a player collects a set of four cards (foursome), he/she puts it aside.

The winner is the player with the most foursomes.
